The HCAT home page – www.hcat.org

Hazmat

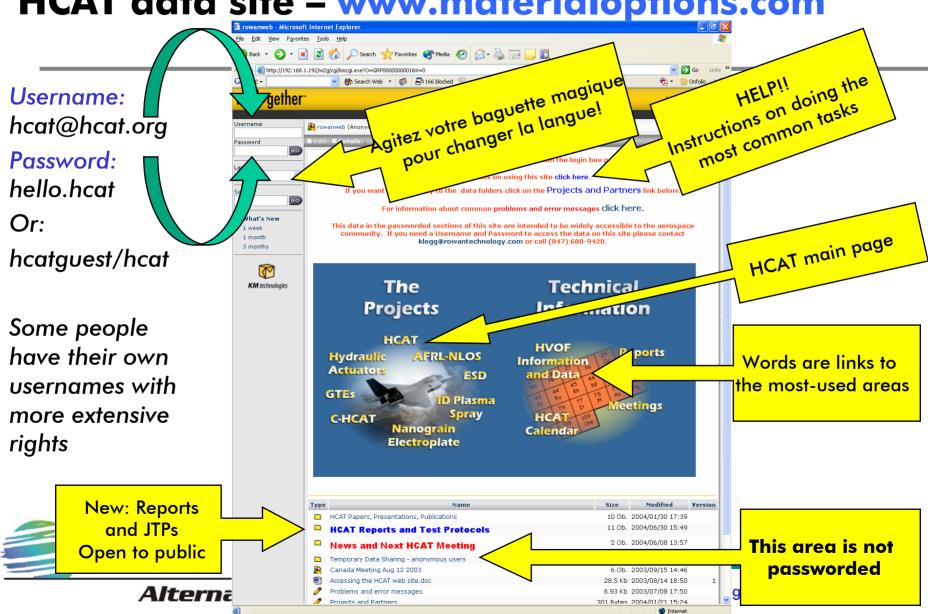

The HCAT workspace – www.materialoptions.com

- Dynamic constantly increasing number of files
- Location for all the reports and data
- All briefings from HCAT meetings (in PDF)
 - > This meeting briefings will be on site in about a week
- ESOH background info
- Specs and standards
- Place to share info, upload and download files
- Separate workgroup for each project to warehouse and share data and work in progress
 - Open only to members of that project

HCAT data site - www.materialoptions.com

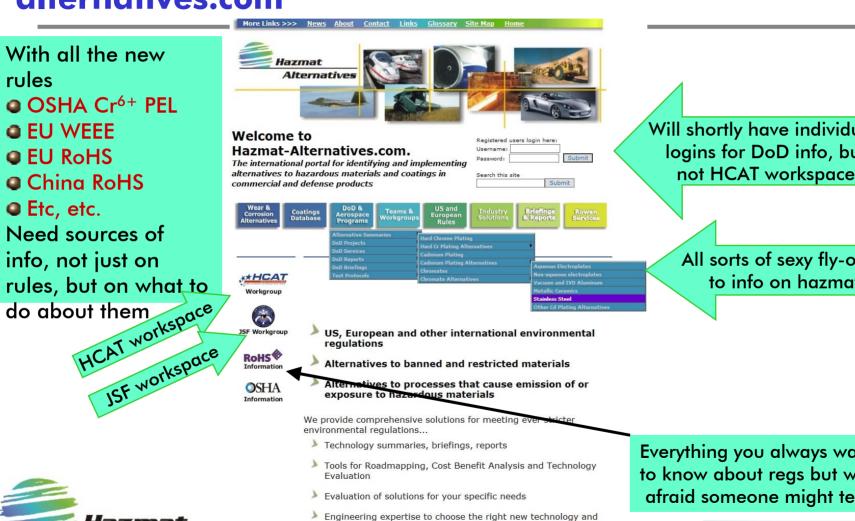

Hazmat-alternatives.com Portal

A new portal to get at info on alternatives to chrome ALTE hazardous materials - www.hazmat-

alternatives.com

put it into production

Will shortly have individual logins for DoD info, but

> All sorts of sexy fly-out links to info on hazmat alts

Everything you always wanted to know about regs but were afraid someone might tell you

Hazmat

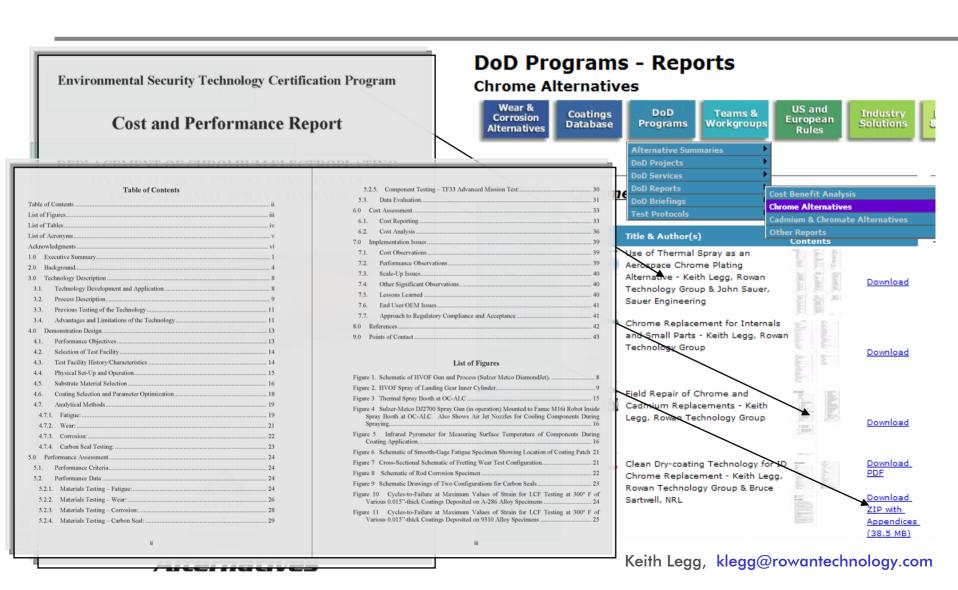

Getting to Workgroups for various programs

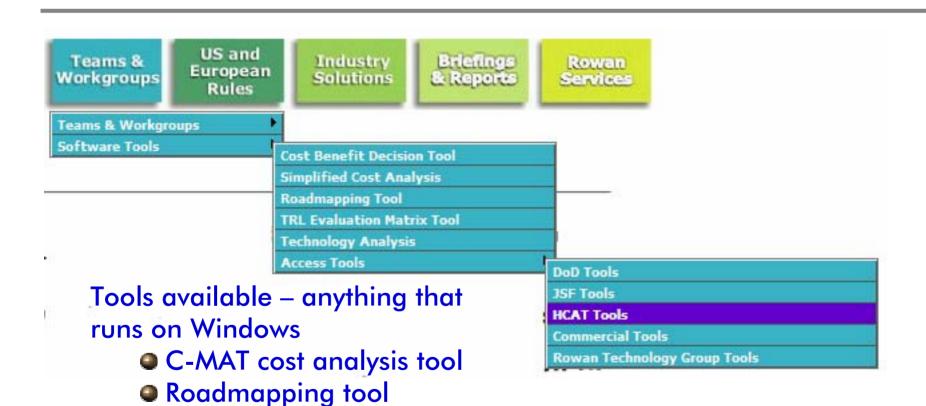

Reports and briefings

Tools

Project planner

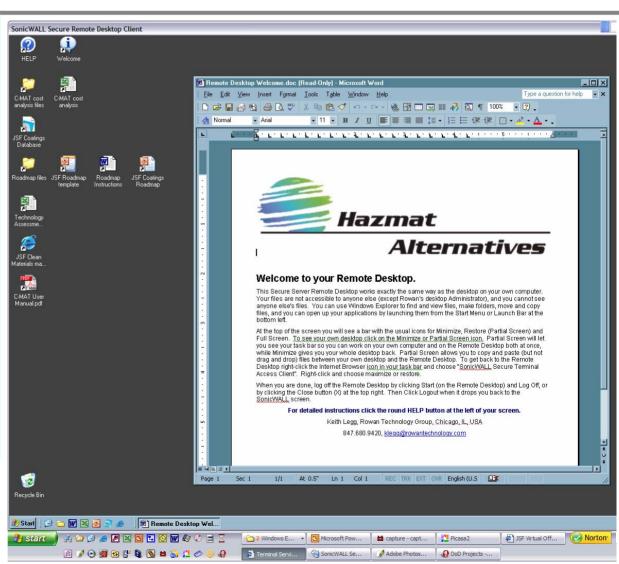

Secure Virtual Office Remote Desktop Tools

Various software tools can be made available for different workgroups

- Username and password needed
- Each user has own preferences
- Each group has own set of tools
- Requires download of ActiveX controls
- Can use for all seeing, modifying cost analyses
- Likely to be good for final assembly of reports – avoid the dreaded GAHBG nonsense with graphics

Alternatives

Password changes

- Due to need for more control and tracking in JSF area and access to DoD info we will soon institute individual usernames and passwords for some areas of workspace
- HCAT area likely to be unaffected
- Anyone needing access to tools will need individual usernames and passwords

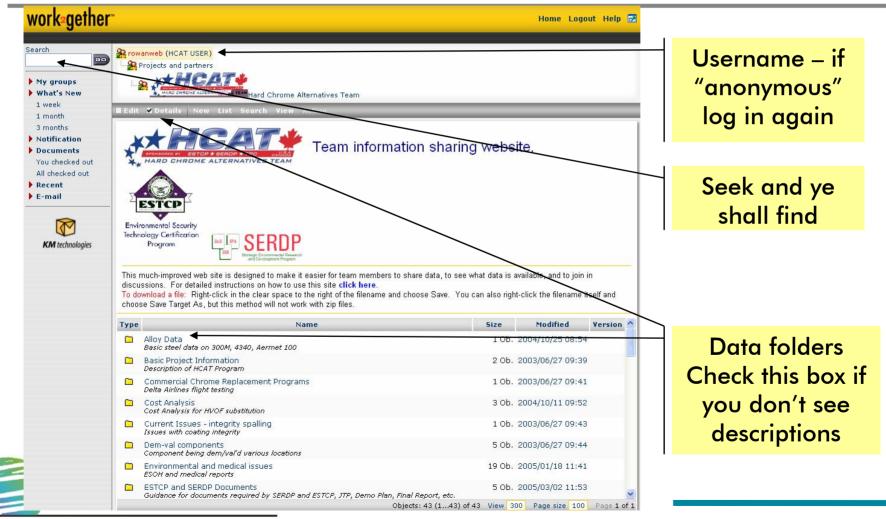

How to get at files on the data-sharing HCAT workspace

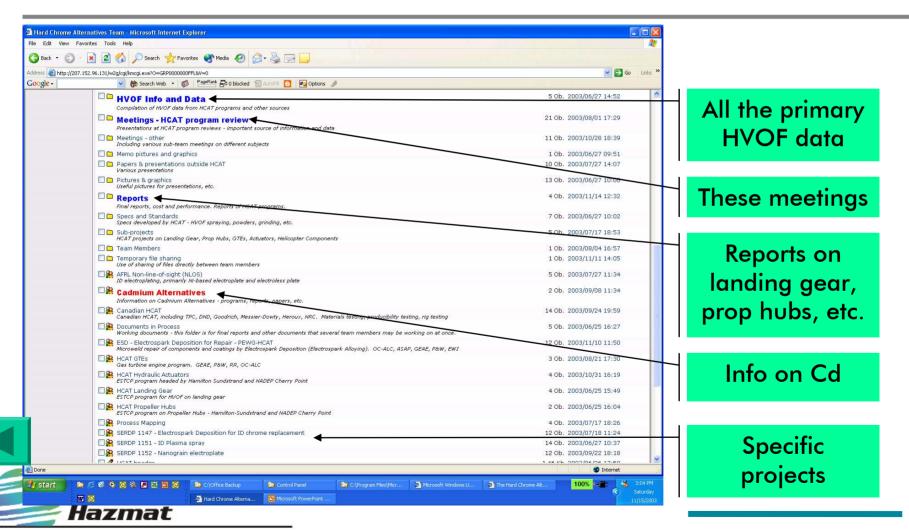

Username and password takes you here

Where is the most important stuff?

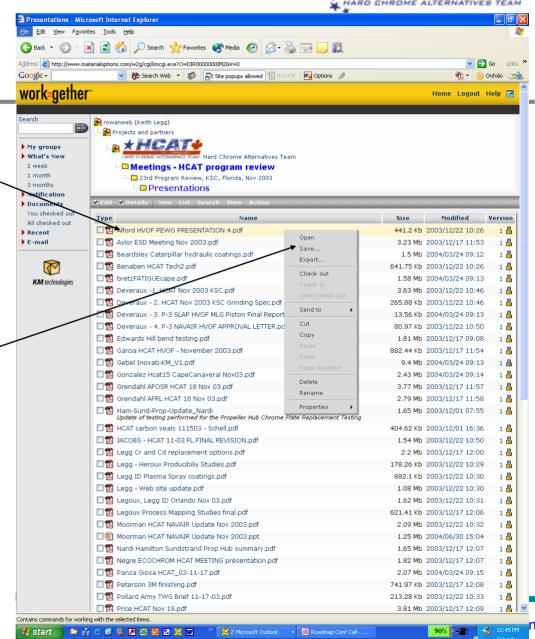

Downloading files

- 1. Move cursor up and down
- Each file area turns yellow as you cross it
- 3. Right-click yellow area rather than filename
 - For most files right-or left-clicking filename works, but not zip files
- 4. Click Save
- 5. Follow the instructions

Left-click filename if you want to view on-line rather than download

Alternatives

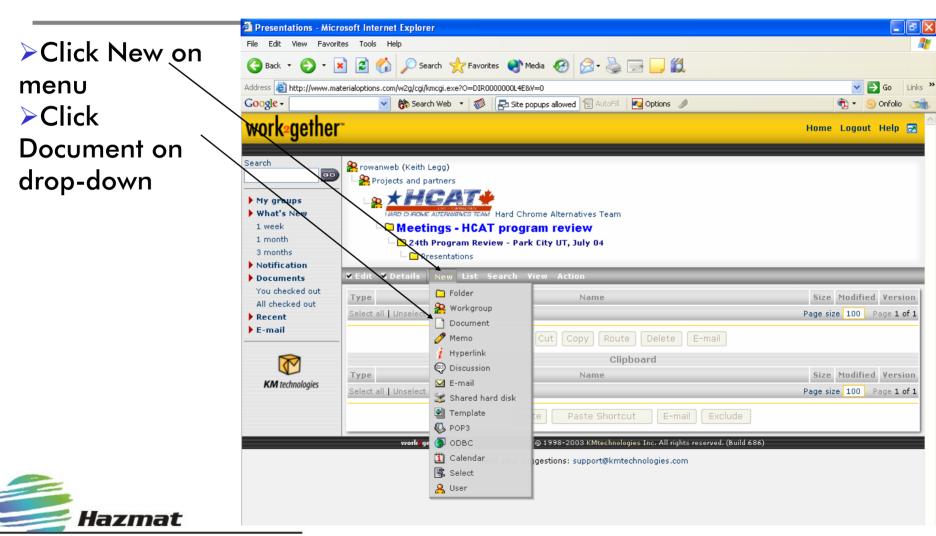

(I) Microsoft PowerPoint .

@ Presentations - Micro.

la 🤣 🔼 🔡 🔡 🗓 🛍 🖫 📵 🐷

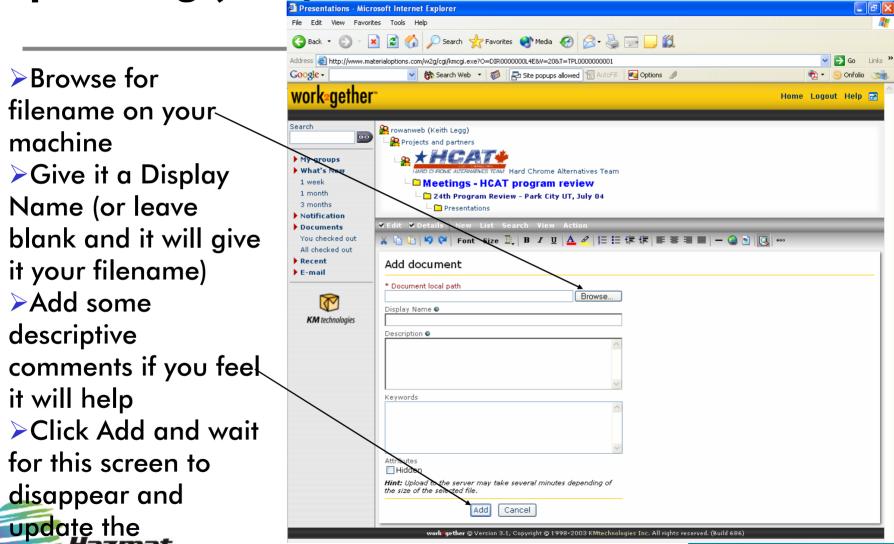

Uploading files

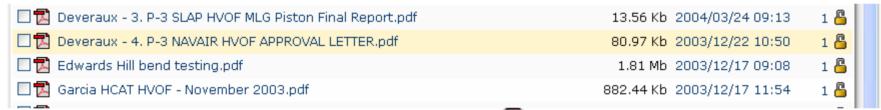

Uploading (cont)

Checking out a document (Click the lock) DO NOT lick the clock unless you mean it!

- This icon is for checking out a document so nobody else can upload a new version until you are done
- Click the lock icon 6 on the far right

It will turn into a little key icop
 want to download (just cancel)

and will ask if you

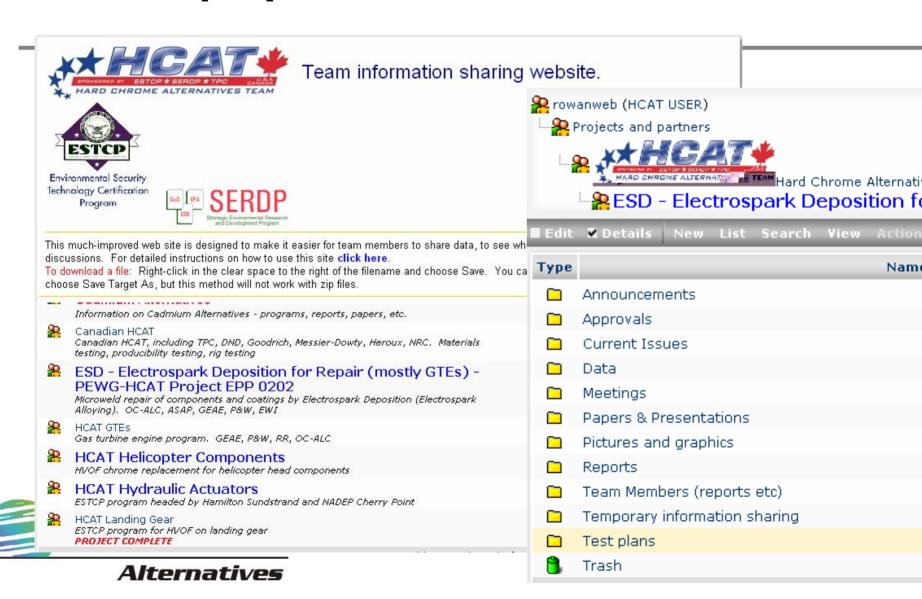

Click the key, browse for the new version of the file and click Save. It uploads with Version # 2

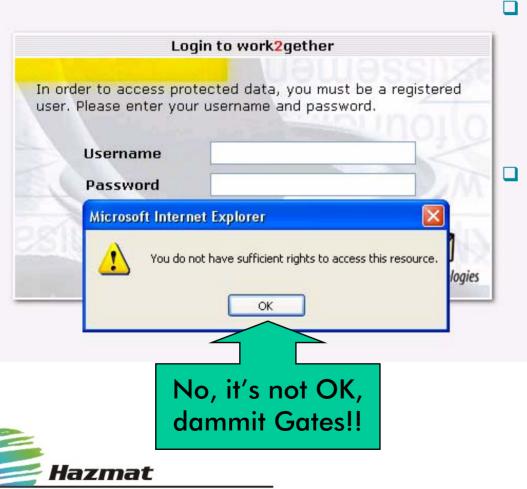

Alternatives But version 1 is still there in case of problems gy.com

Individual projects

Sometimes it asks for your username and password again

Alternatives

- The rule is "if you can see it you have rights to it"
 - Just enter username and password again
- Also, when you use the back arrow to get back you often get a Gatesian "page expired" message
 - Just click the arrow again
